II. Mining and Reclamation

1. Was there any mine related activity during the past year? Yes ☒ No ☐
2. If no - what was the last year of activity? _____
3. If yes - how much ore or mineral was mined? approx. 4,000 lbs. overburden removed to uncover ore discover mineable mineral and ore

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.
No new surface disturbances - overburden removed was enough to satisfy assessment work requirements for a period of two years (through 2000) in attempt to find garnets and mineral
5. How much **additional acreage** was disturbed during the past year? none
6. How much acreage was **reclaimed** during the past year? work is in progress
7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.
Reasonable reseeding was done along road; dump; and area disturbed by equipment used in mining operation -
8. What is the **total** disturbed acreage of entire project at years end? not more than (one) an acre.
9. Briefly summarize any mining and/or reclamation plans for the upcoming year.
Keep same plan of operation for 2001 as in past years; develop existing cuts and search for new mineral deposits - mine garnets as found - continue reseeding + reclaiming any disturbed ground.
